► This corrects the article “Characteristics of the European Thoracic Society/American Thoracic Society severe asthma definition as a determinant of future use of biologics/bronchial thermoplasty” in volume 12, number 2, e13.

To the editor,

In this paper, we found this mistake in the title, the second sentence of the Method part in the abstract, the first sentence of the second paragraph in the INTRODUCTION, and the footnote of the Table 3. Thus, we would like to correct these careless mistakes. The mistakes were not due to the editorial office of *Asia Pacific Allergy*.

We attached an erratum along with this letter to request for a correction of the article title “Characteristics of the European Respiratory Society/American Thoracic Society severe asthma definition as a determinant of future use of biologics/bronchial thermoplasty.” In addition, we would also like to replace “European Thoracic Society” with “European Respiratory Society” in the Method part of the abstract, the second paragraph of the INTRODUCTION, and the footnote of the Table 3.

Yours sincerely,

Hirono Nishiyama and Yoshihiro Kanemitsu
