Correction to: *EMBO Mol Med* (2017) 9: 508–530. DOI 10.15252/emmm.201506111 | Published online 8 March 2017

The authors of the above research article have informed the journal that although the paper uses the official nomenclature PPARG to signify the peroxisome proliferator-activated receptor gamma gene, the most prevalent term used in the literature is PPAR γ . Therefore,

the title, abstract, and keywords have been changed and now apply the latter term to improve searchability. The authors apologize for any inconvenience caused.
