# Correction: A comparison of statistical methods for the detection of hepatocellular carcinoma based on serum biomarkers and clinical variables

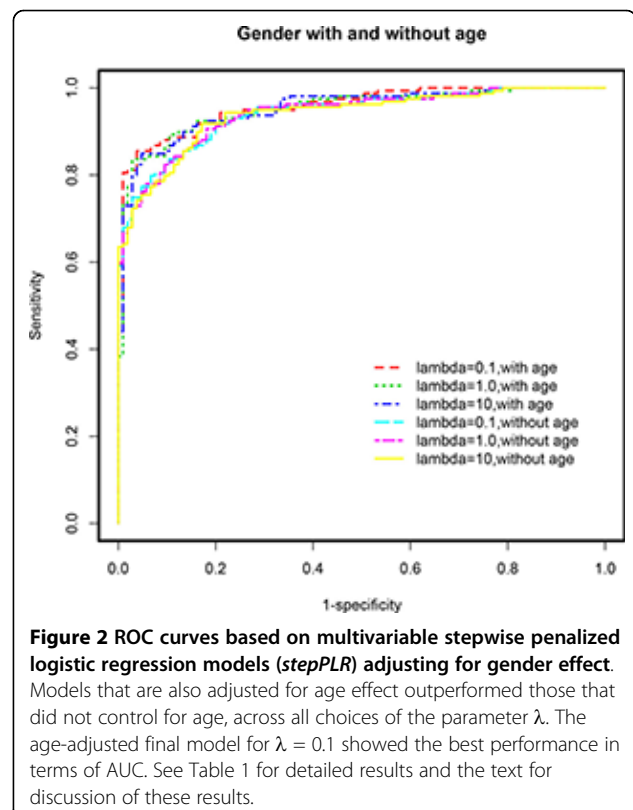

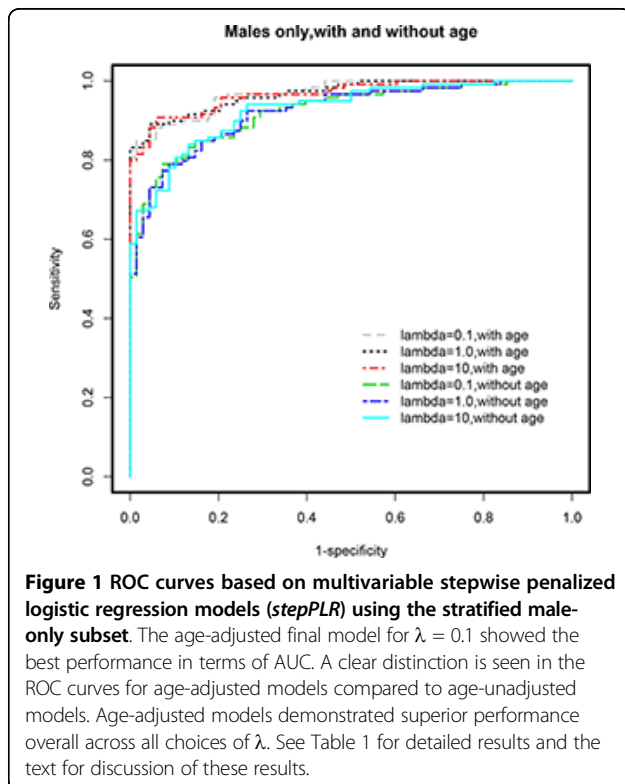

Mengjun Wang<sup>1</sup>, Anand Mehta<sup>1</sup>, Timothy M Block<sup>1</sup>, Jorge Marrero<sup>2</sup>, Adrian M Di Bisceglie<sup>3</sup>, Karthik Devarajan<sup>4\*</sup>

From IEEE International Conference on Bioinformatics and Biomedicine 2012  
Philadelphia, PA, USA. 4-7 October 2012

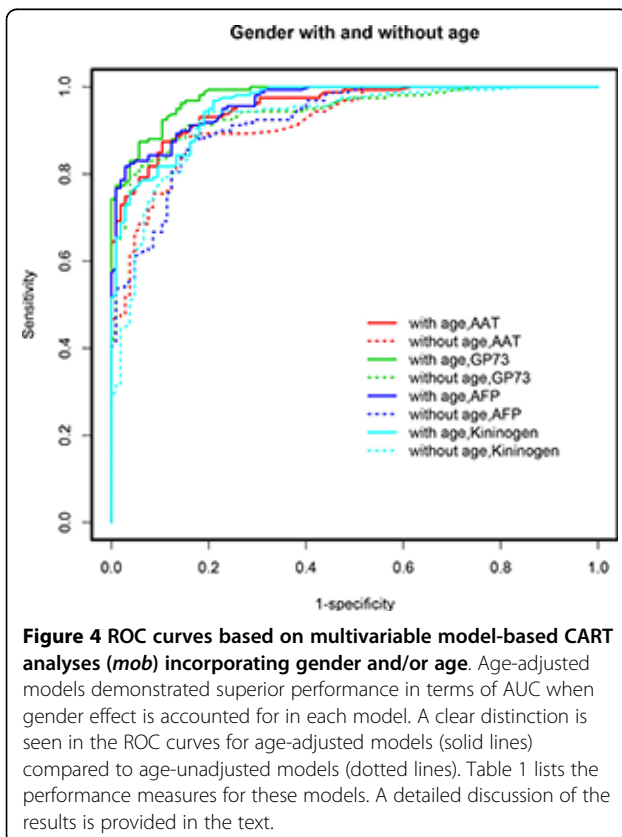

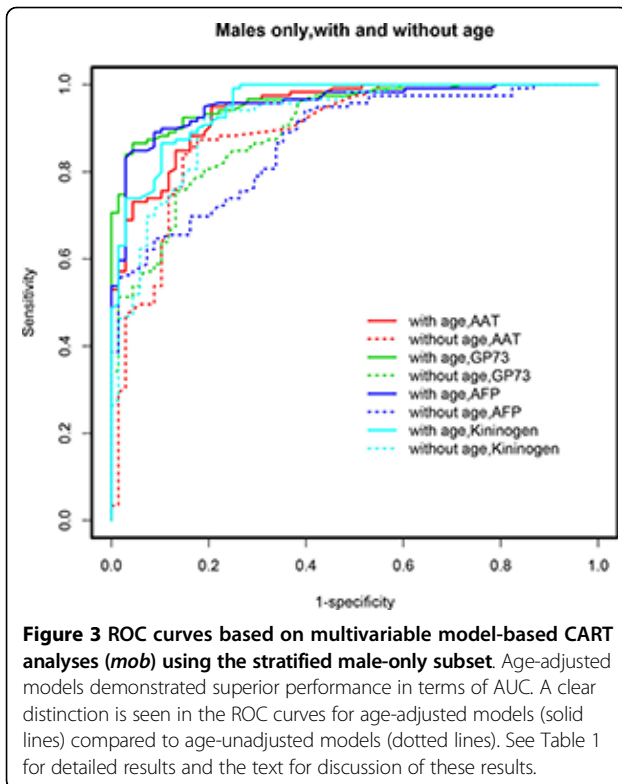

## Correction

Our original article was published in *BMC Medical Genomics* in the supplement containing selected articles from the IEEE International Conference on Bioinformatics and Biomedicine 2012 (IEEE BIBM 2012) [1]. After publication,

it was noticed that the ROC curves in Figures 1, 2, 3, 4 displayed Sensitivity vs. Specificity rather than Sensitivity vs. 1-Specificity, as labeled. These figures have been reproduced here in the correct format, displaying Sensitivity vs. 1-Specificity, and should replace the corresponding figures in the original article. However, AUC values remain unaffected by this change.
