Correction

Following publication of the original article [1], the authors would like to correct the number of participants in the second paragraph under the heading **Relevance to Wider Literature**.

The sentence currently reads:

The trial experienced recruitment difficulties (only six patients were randomised) and therefore had limited power to investigate the impact of the intervention on the trial's primary outcome—depression.

The sentence should read:

The trial experienced recruitment difficulties (61 patients were randomised, 32 to the intervention) and therefore had limited power to investigate the impact of the intervention on the trial's primary outcome—depression.
