In the article titled “Inducible Conditional Vascular-Specific Overexpression of Peroxisome Proliferator-Activated Receptor Beta/Delta Leads to Rapid Cardiac Hypertrophy” [1], there are errors in Figures 1, 2, and 5. In Figure 1, some of the images were not representative. A higher resolution figure is provided from the authors. In Figures 2 and 5, the images of hearts are supposed to be of different sizes. Due to production errors, the images were all the same size. The corrected figures are shown below.
