Correction: Flavonoid engineering of flax potentiate its biotechnological application

Magdalena Žuk^{1,5*}, Anna Kulma¹, Lucyna Dymińska², Katarzyna Szoltysek², Anna Prescha³, Jerzy Hanuza^{2,4} and Jan Szopa^{1,5}

Following publication of our paper in *BMC Biotechnology* [1] it came to light that numerous sections of text were similar or identical to our previous publications. We acknowledge that portions of the text in the Background, Methods, Results and Discussion of the article published in *BMC Biotechnology* (above) are identical to wording in our previous publications in *Spectrochimica Acta (SAA)* [2], *Biotechnology Progress* [3] and *Physiological and Molecular Plant Pathology (PMPP)*[4] and that these publications should have been correctly cited.

Submit your next manuscript to BioMed Central and take full advantage of:

- Convenient online submission
- Thorough peer review
- No space constraints or color figure charges
- Immediate publication on acceptance
- Inclusion in PubMed, CAS, Scopus and Google Scholar
- Research which is freely available for redistribution
