
PPAR signaling pathway
Long-term depression
GABAergic synapse
Necroptosis
Sulfur relay system
Linoleic acid metabolism
Galactose metabolism
Pyruvate metabolism
Proximal tubule bicarbonate reclamation
Carbohydrate digestion and absorption
Central carbon metabolism in cancer
Alanine, aspartate and glutamate metabolism
Vitamin digestion and absorption
ABC transporters
Phenylalanine metabolism
Fructose and mannose metabolism
Arginine and proline metabolism
Cysteine and methionine metabolism
Bile secretion
Enriched KEGG Pathways
