## Correction

After the publication of this work [1], we noticed that we had made a spelling error in title. The word “has-miR-337-3p” in the title should be changed to “hsa-miR-337-3p”. The correct title should be **“Loss of hsa-miR-337-3p expression is associated with lymph node metastasis of human gastric cancer”**.

We sincerely apologize to the readers.
