Erratum to: 'The orientation of transcription factor binding site motifs in gene promoter regions: does it matter?'

Monika Lis and Dirk Walther*

Unfortunately, the original version of this article [1] contained an error. Equation number two was missing a “-“ (a minus) sign before the sum symbol. The correct equation has been included here. This correction concerns the notation only. All computations using this equation were done correctly.

$$PE_m = -\sum_i p_i \log(p_i), \quad (2)$$

Submit your next manuscript to BioMed Central and we will help you at every step:

- We accept pre-submission inquiries
- Our selector tool helps you to find the most relevant journal
- We provide round the clock customer support
- Convenient online submission
- Thorough peer review
- Inclusion in PubMed and all major indexing services
- Maximum visibility for your research
