There is an error in [Table 5](#). The column headings “Odds ratio” and “(95% CI)” are incorrectly placed. The third column should be “Odds ratio” and the fourth column should be “(95% CI)”.

Table 5. Risk of the five types of cataract for two-, three- and four-fold cumulative ocular UV exposure (COUV) based on the mean COUV in Japanese people (all adjusted for age, sex, axial length, and DM).

Risk factor		Odds ratio	(95% CI)	p-value
