In the article titled “Development and Evaluation of an Immuno-Capture Enzyme-Linked Immunosorbent Assay to Quantify the *Mycoplasma capricolum* subsp. *Capripneumoniae* (Mccp) Protein in Contagious Caprine Pleuropneumonia (CCPP) Vaccine” [1], information was omitted in the Acknowledgments section. The corrected section appears as follows:

Acknowledgments

This work was mainly supported and funded by The Global Alliance for Livestock Veterinary Medicines (GALVmed) under the contract agreement AUP-R17A0079 “Development of an antigen quantification test for contagious caprine pleuropneumonia (CCPP) vaccine.” The Pan African University Institute for Basic Sciences, Technology and Innovation

(PAUSTI) also supported a Ph.D. student working on the project.
