**Erratum to: Drug Saf 37:283–294 (2014)**  
**DOI 10.1007/s40264-014-0150-2**

**Page 284, Column 2, line 3:** The reference at the end of quote “this decline is due to a reduction in the reporting of clinically mild or trivial reactions. The more serious ADR, such as haematemesis, perforation of peptic ulcers, blood dyscrasias, etc. are reported from year to year in a quite constant manner”, which previously read:

Weber J. Epidemiology of adverse reactions to nonsteroidal anti-inflammatory drugs. *Adv Inflamm Res.* 1984;6:1–7.

should read:

Weber JCP. Epidemiology in the United Kingdom of adverse drug reactions from non-steroidal anti-inflammatory drugs. In: Rainsford KD, Velo GP, editors. *Side-effects of anti-inflammatory drugs.* Springer Netherlands; 1987. p. 27–35
