Introduction

This online appendix to the paper "Meta-analysis of binary and continuous outcomes with R and the dmetar package" provides the complete R code for all analyses.

Search Strategies

The search strategies are described in the paper.

Data Synthesis

Unadjusted meta-analysis

Load arm-based data extraction

```
library(dmetar)
data(dat.bcg)
head(dat.bcg)
```

```
##   trial author year tpos  tneg cpos  cneg ablat      alloc
## 1     1  Aronson 1948    4   119   11   128    44     random
## 2     2  Ferguson 1949    6   300   29   274    55     random
## 3     3      Rich 1949    3   228   11   209    42     random
## 4     4     Rosen 1949   62 13536  248 12619    52     random
## 5     5   Hart 1950   33  5036   47  5761    13     random
## 6     6  Frimodt-Moller 1950  180  1361  372  1079    44     random
```

Load contrast-based data extraction

```
data(dat.bcg.contrast)
head(dat.bcg.contrast)
```

```
##   trial author year      yi     vi ablat      alloc
## 1     1  Aronson 1948 -0.8893 0.3256    44     random
## 2     2  Ferguson 1949 -1.5854 0.1946    55     random
## 3     3      Rich 1949 -1.3481 0.4154    42     random
## 4     4     Rosen 1949 -1.4416 0.0200    52     random
## 5     5   Hart 1950 -0.2175 0.0512    13     random
## 6     6  Frimodt-Moller 1950 -0.4694 0.0269    44     random
```

Meta-analysis model of pooled ORs

Meta-analysis for pooled ORs, random-effects model, Hartung-Knapp adjustment, Sidik-Jonkman estimator for tau-squared.

```
m.bcg <- metabin(tpos, tpos+tneg, cpos, cpos+cneg,
                 data=dat.bcg, studlab=paste(author, year),
                 comb.fixed=FALSE, comb.random=TRUE,
                 method="Inverse", sm="OR",
                 method.tau="SJ", hakn=TRUE,
                 prediction=TRUE, backtransf=TRUE)
```

```
## Warning: Zero cell frequencies for single arm studies (with tpos+tneg or cpos+cneg = 0) are removed from meta-analysis: Comparison 1948, Comparison 1949, Comparison 1949, Comparison 1950, Comparison 1950, Comparison 1951, Comparison 1951, Comparison 1953, Comparison 1953, Comparison 1954, Comparison 1954, Comparison 1956, Comparison 1956, Comparison 1957, Comparison 1957, Comparison 1958, Comparison 1958, Comparison 1959, Comparison 1959, Comparison 1960, Comparison 1960, Comparison 1961, Comparison 1961, Comparison 1962, Comparison 1962, Comparison 1963, Comparison 1963, Comparison 1964, Comparison 1964, Comparison 1965, Comparison 1965, Comparison 1966, Comparison 1966, Comparison 1967, Comparison 1967, Comparison 1968, Comparison 1968, Comparison 1969, Comparison 1969, Comparison 1970, Comparison 1970, Comparison 1971, Comparison 1971, Comparison 1972, Comparison 1972, Comparison 1973, Comparison 1973, Comparison 1974, Comparison 1974, Comparison 1975, Comparison 1975, Comparison 1976, Comparison 1976, Comparison 1977, Comparison 1977
```

```
m.bcg
```

```
##                          OR           95%-CI %W(random)
