

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

WITHDRAWN: Anti-cancer properties of specific Chinese herbal medicines for hepatocellular carcinoma treatment

Zang Ping^a, Xue Jun^b, Wang Yan^c, Zhang Jun^{b,*}

^a Pharmacy, Qingdao Island Central Hospital, China

^b Department of Pharmacy, Huangdao district Chinese Medicine Hospital, Qingdao City, 158 Hainan Island road, Qingdao City, Shandong Province, China
