

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

SOGC Committee Opinion – COVID-19 in Pregnancy

Chelsea Elwood MD , Isabelle Boucoiran MD ,
Julie VanSchalkwyk MD , Deborah Money MD , Mark Yudin MD ,
Vanessa Poliquin MD

To appear in: *Journal of Obstetrics and Gynaecology Canada*

Please cite this article as: Chelsea Elwood MD , Isabelle Boucoiran MD , Julie VanSchalkwyk MD , Deborah Money MD , Mark Yudin MD , Vanessa Poliquin MD , SOGC Committee Opinion – COVID-19 in Pregnancy, *Journal of Obstetrics and Gynaecology Canada* (2020), doi: <https://doi.org/10.1016/j.jogc.2020.03.012>

This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Available online <Date>

The publisher regrets that this article has been temporarily removed.

Given that these are unprecedented times and new information is released at an incredible speed, the authors have expressed concerns about publishing a print version of the Committee Opinion. It will simply not be possible to keep the document up to date. The authors have formally requested that, in lieu a printed document, please visit the Society of Obstetricians and Gynaecologists of Canada (www.sogc.org) for an online version of the Committee Opinion that will be regularly updated as new evidence emerges.
