Proc. R. Soc. B **288**, 20211769 (Published 20 October 2021). (doi:10.1098/rspb.2021.1769)

In figure 3*e* of our original paper, the middle pie chart had the colour schemes for the different career stage groups mixed up. In that paper, 17% was dark blue, 31% was blue and 52% was light blue. It should be 17% blue, 31% light blue and 52% dark blue, as shown in the corrected version below.

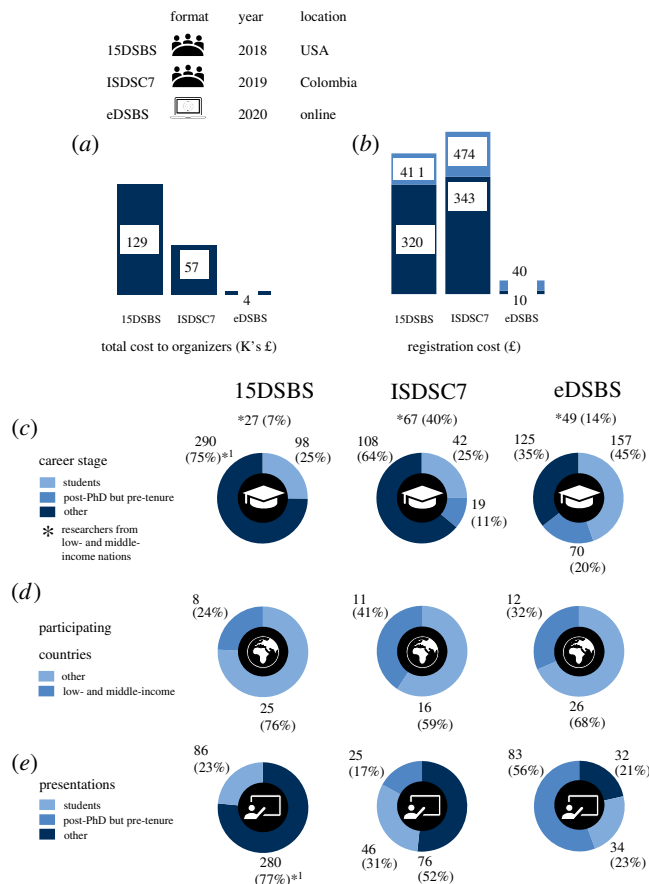

Figure 3. Comparison between similar-themed online and in-person meetings. (a) Total cost to organizers, using currency conversion rates as of 1 March 2021. Conversions were rounded to the nearest integer. (b) Registration cost to participants, indicating reduced (dark blue) and standard (light blue) registration fee options, linked to career stage and country of institutional affiliation. (c) Demographic composition by career stage. Note that students include PhD candidates too, while tenure includes any equivalent permanent position. (d) Number of participating countries, as identified from participants’ institutional affiliations. Country categories based on the 2021 classification by the World Bank (last accessed on 19 January 2021). (e) Presentation composition by career stage. ^{*1}Includes post-PhD but pre-tenure. (Online version in colour.)
