

Expression of concern

Shivapurkar et al., “Differential Inactivation of Caspase-8 in Lung Cancers”, Cancer Biol Ther 2002; 1:65–9

The Editors were recently provided information regarding evidence of image manipulation in a research paper published in *Cancer Biology & Therapy* in 2002. Uncertainty exists as to the impropriety of the manipulation. The publisher was notified by the senior author at the request of the Dean of Southwestern Medical School to publish an Expression of Concern regarding “Differential Inactivation of Caspase-8 in Lung Cancers” (<http://dx.doi.org/10.4161/cbt.1.1.45>), a research paper by Narayan Shivapurkar, Shinichi Toyooka, Michael T Eby, Chun Xian Huang, Ubaradka G Sathyanarayana, H Thomas Cunningham, Jyotsna L Reddy, Elizabeth Brambilla, Takashi Takahashi, John D Minna, Preet M Chaudhary, and Adi F Gazdar. The allegations concern **Figure 3**.

The original published figure is shown above.

The evidence provided regarding image manipulation is shown above.
