

CORRECTION

Correction: Reduced Intensity Conditioning, Combined Transplantation of Haploidentical Hematopoietic Stem Cells and Mesenchymal Stem Cells in Patients with Severe Aplastic Anemia

The *PLOS ONE* Staff

There is an error in the fifth sentence of the “Mesenchymal stem cells preparation and transfusion” subsection of the Materials and Methods. The correct sentence is: Transfusion recipients received the human umbilical cord-derived mesenchymal stem cells (hUC-MSC; $4 [2.87-10] \times 10^5/\text{kg}$) 6 hours before transfusion of bone marrow and peripheral blood stem cells (Fig. 1).
