

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

<sup>c</sup> Inserm UMR S 1116 DCAC, Faculté de Médecine/Maïeutique/Métiers de la santé à Nancy, University of Lorraine, Nancy, France

Available online 2 August 2022

The publisher regrets ‘‘Declaration about Human and animal rights’’ and ‘‘Declaration about Informed consent and patient details’’ were not included in the published version of the following article that appeared in a previous issue of *JMV- Journal de Médecine Vasculaire*.

- Human and animal rights

The authors declare that the work described has not involved experimentation on humans or animals.

- Informed consent and patient details

The authors declare that they obtained a written informed consent from the patients included in the article. The authors also confirm that the personal details of the patients have been removed.
