**This article has been corrected:** During assembly of Figure 5A, the authors made an error in the vector and scramble sequences co-transfected group, whose picture was the same as the si-NC and scramble sequences co-transfected group. The corrected Figure 5A is shown below. The authors declare that these corrections do not change the results or conclusions of this paper.

**Figure 5: MiR-101 induces U251 cell apoptosis via LMO3.** (A) LMO3 overexpression counteracted miR-101-promoted apoptosis (×100). Left: Hoechst 33258 staining was used to detect the level of apoptosis in U251 cells.
