### Supporting Information

Figures 2 and S32 incorrectly reported the units of time in seconds rather than minutes. These axis labels have been rectified in the attached versions of Figure 2 and the Supporting Information to match the (correct) time scales for H<sub>2</sub> release reported in the text of the manuscript.

Figure 2. Eudiometry of AB dehydrogenation catalyzed by 4, 5, and 11. Mo<sup>0</sup> powder and catalyst-free controls are included for reference.
