(Stem Cell Reports 12, 411–426; February 12, 2019)

In the originally published version of our supplemental information, a software processing error had caused Figure S2G to go missing. The supplemental information has now been corrected to include this missing panel and the correct version of Figure S2 is also reproduced below. We apologize for the confusion.

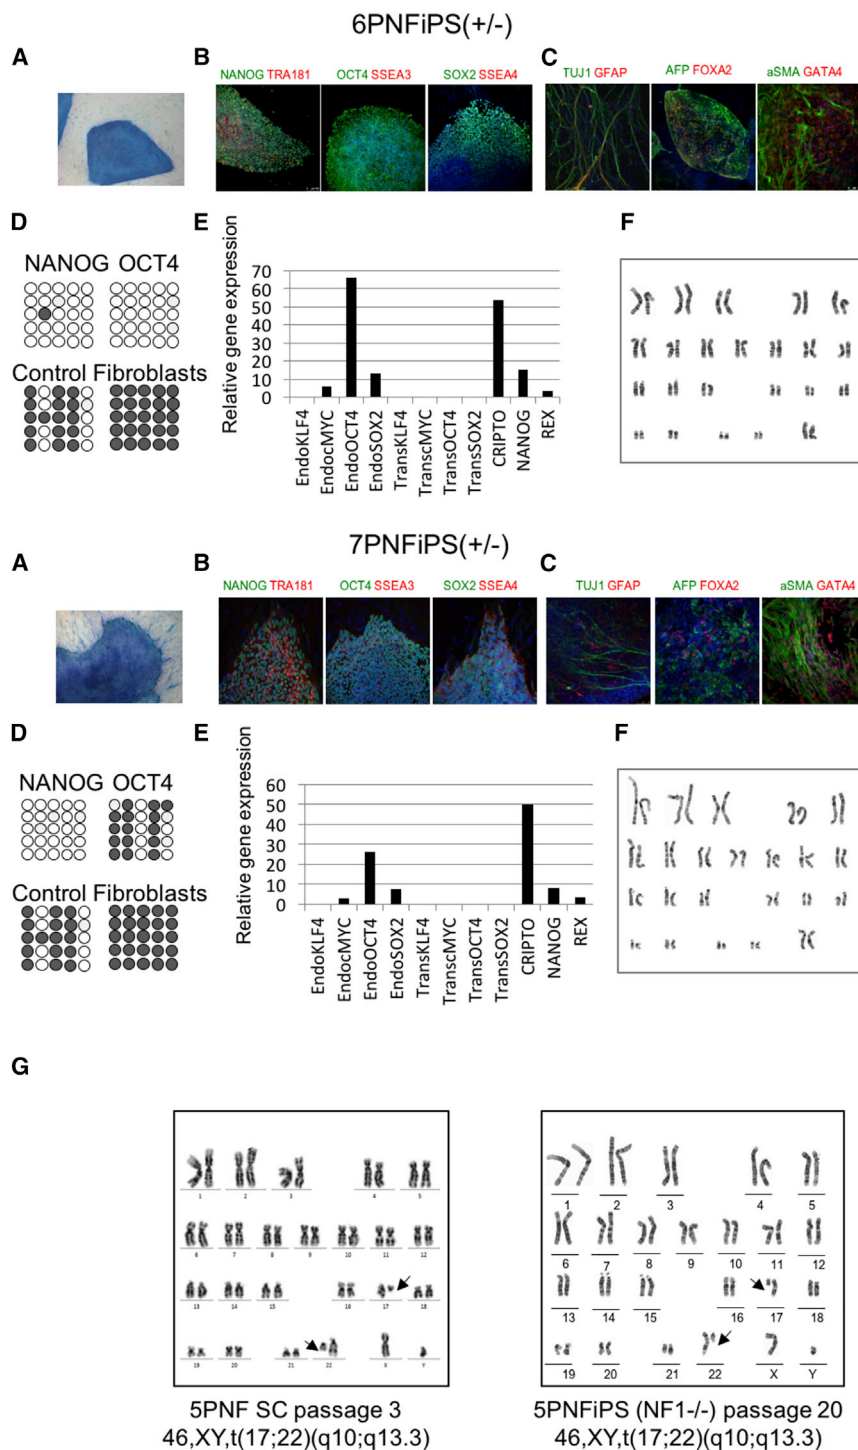

Figure S2. iPSC Characterization of the Additional Banked NF1 iPSCs Lines, corrected
