

# Corrigendum: A descriptive guide for absolute quantification of produced shRNA pseudotyped lentiviral particles by real-time PCR

Virginie Mournetas, Sofia Melo Pereira, David G. Fernig, Patricia Murray

Journal of Biological Methods 2016;3(4):e55; doi: 10.14440/jbm.2016.142; published online October 4, 2016; updated on December 16, 2019

An error in the equation under Procedure 10.1 occurred. The corrected equation is shown below:

$$N\left(\frac{\text{molecules}}{\mu\text{l}}\right) = \frac{6.022 \times 10^{23} (\text{molecules/mole}) \times \text{plasmid concentration } (\mu\text{g}/\mu\text{l})}{\text{plasmid length (base pairs)} \times 660 \text{ daltons}} \times 2$$
