This is a correction notice for article bjaa049 (DOI: <https://doi.org/10.1093/chemse/bjaa049>), published 09 July 2020.

In [Figure 3](#), the labels on the x-axis were inverted such as that “OM” wrongly referred to the visual training group and “VM” wrongly

referred to the olfactory training group. Importantly, the error only concerned the [Figure 3](#) labels; our results and interpretations are unchanged. Our mistake has been corrected in the revised version of [Figure 3](#). We also made minor revisions of [Figure 3](#) and its accompanying text, to achieve greater clarity.
