

Corvera et al. Volume 126, No. 4, August 1994. Pages 979-990.

Fig. 1 in the above mentioned paper contains erroneous amino acid sequences. The corrected version of Fig. 1 is presented here.

*Figure 1.* The 1(1-462)/4Y mutant was obtained by truncation of the GLUT4 COOH terminus at position 501 so that tyrosine 502 is missing.
