This supplemental material has been provided by the authors to give readers additional information about their work.

eFigure 1. Cumulative incidence of publication of completed non-inferiority trials registered on ClinicalTrials.gov since primary trial completion date, for studies with a primary completion date from January 1, 2010 to January 1, 2015

eFigure 2. Reporting of the non-inferiority margin from registration to publication

Each spoke represents one of the trials registered on ClinicalTrials.gov with a primary completion date from January 1, 2010 to January 1, 2015. The 4 trials registered as NI trials but published as superiority or equivalence trials are not presented here. Every concentric circle represents one stage, with "at registration" being the central circle and "in publication" the furthest circle from the center.

- 1: At registration
- 2: Between the study start date and the primary completion date
- 3: After the primary completion date
- 4: In results posted
- 5: In corresponding publication

eFigure 3. Consistency of the primary analysis population between results posted and corresponding publications

PP: per protocol; ITT: intention to treat; mITT: modified intention to treat
