### Erratum to: Clin Transl Oncol (2015) 17:884–887 DOI 10.1007/s12094-015-1320-0

Human study section, page 885, second paragraph, last sentence: an incorrect unit of measurement was inserted by mistake. The sentence should read:

At the moment of vaccination, the soluble fraction of the homogenate was mixed with formaldehyde 36 % at a final concentration of 0.02 % and 0.06 ml of BCG suspension 0.15 % (Staten Serum Institute, Copenhagen).

This error does not change the scientific conclusions of the article in any way. The authors regret this error and apologize for any inconvenience caused.
