

Erratum : Figure Correction

To the Editor:

We have noticed an inadvertent error in our article “Immature Platelet Fraction: Establishment of a Reference Interval and Diagnostic Measure for Thrombocytopenia” (1).

The published Figure 4 is ROCs to distinguish the ITP from the healthy controls and AA patient group. The labels for each ROC are reversed. We have attached a corrected version of Figure 4. This error does not change the scientific conclusions of the article in any way. The authors apologize for this error.
