In the article titled “Perceptions, attitudes, behaviors, and barriers to effective obesity care in South Korea: results from the ACTION-IO study”, there were some errors in Figure 2. In Figure 2A, the range of values was incorrectly indicated. And, in Figure 2A-C, figure legends should be corrected. The correct figures are as follows.

We would like to apologize for any inconvenience that may have caused.

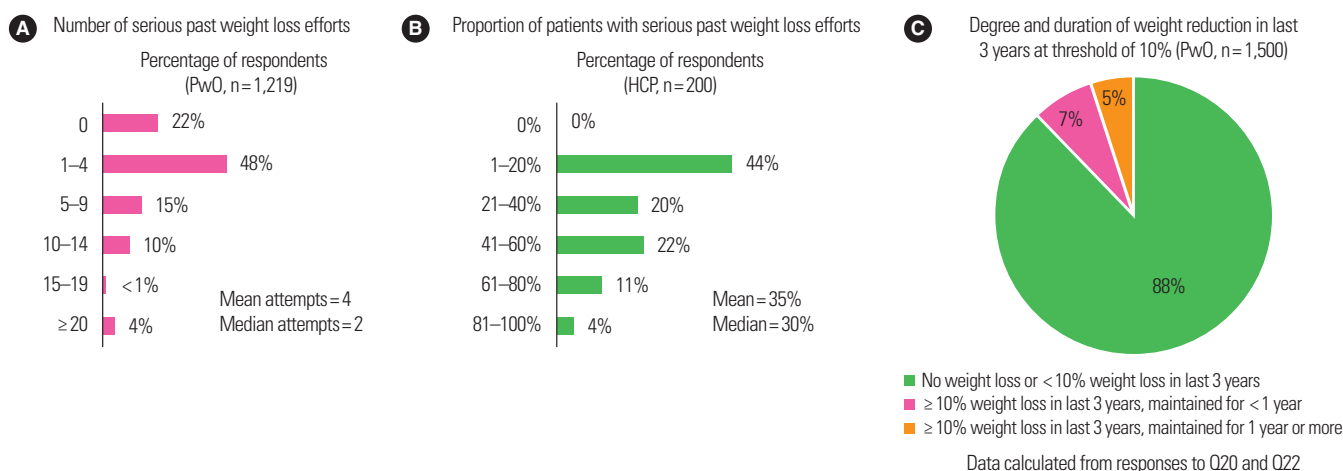

Figure 2. Serious weight loss efforts made and people with obesity (PwO) response to weight loss efforts in Korea. (A) Number of serious past weight loss efforts as reported by PwO in Korea. (B) Proportion of patients who have made serious weight loss efforts as reported by healthcare professionals (HCPs) in Korea. (C) Proportion of PwO in Korea who reported a weight loss of at least 10% in the last 3 years and who maintained the weight loss for at least 1 year. Q, survey question.
