Erratum to: Neuroradiology
DOI 10.1007/s00234-013-1180-7

Author error during the proof stage resulted in an incorrect statement. Please note: In the results section the sentence, "Compared with DFE, the MRI standard protocol showed a sensitivity of 75% which increased to 83% for the orbits SWI protocol" should be changed to: "Compared with DFE, the MRI standard protocol showed a sensitivity of 62% which increased to 80% for the orbits SWI protocol". The remaining data, including the table, appears to be correct.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s00234-013-1180-7>.
