

OBITUARY

**Dr Dimitri Tassiopoulos**

Dimitri managed *SAHARA-J: Journal of Social Aspects of HIV/AIDS* exceptionally well and ensured its swift transition to Scholar One. He did so with great enthusiasm and passion right up to him being diagnosed with a debilitating illness that led to his untimely passing. Dimitri diligently set up and refined the internal systems, structures, processes and mar-

keting tools for the journal's effective and efficient management and was instrumental in acquiring higher impact factor for the journal. Dimitri's death is a great loss, not only for *SAHARA J* but also on a personal level as he had become an all-time friend, my confidant and soul brother.
