† Bart Hens & Marival Bermejo should both be considered as a joint first author.

Received: 1 September 2020; Accepted: 11 November 2020; Published: 25 November 2020

The authors make the following correction to this paper after the final publication of the work [1]: The authors acknowledge that Dr. Patrick Augustijns should have been included as one of the co-authors because of the conceptualization of the work with respect to the subject ‘real-life dosing conditions’.

The Author Contributions section has been updated as follows: B.H. and M.B. designed the experiments. Experimental work and ADMET Predictor simulations were performed by B.H. and M.B. performed the modeling experiments. P.A. conceptualized the research subject. G.L.A and G.E.A. supervised and co-financed the project. R.C. reviewed and edited the manuscript. All authors have read and agreed to the published version of the manuscript.

Conflicts of Interest: The authors declare no conflict of interest.
