Supporting Information

Corrections to a typo were made in the Supporting Information, [Figure S19](#), where units in parts a and b were changed from MHz to kHz.

In the main text in the Experimental Section, at the end of the subsection on Computational Studies, an error was introduced during production of the original paper. An incorrect unit for the quadrupolar moments was given; it should be corrected from  $\text{fm}^{-2}$  to  $\text{fm}^2$ .
