Following publication of the original article [1], the author identified an error which was introduced during the typesetting process. Table 1 was updated to show the updated vaccination doses administered. The values within the table were updated but the table description was not updated.

Below the incorrect and correct table description:

Incorrect: Table 1 Cumulative COVID-19 vaccination doses administered per 100 people by **Feb. 1**, 2021, or latest date available

Correct: Table 1: Cumulative COVID-19 vaccination doses administered per 100 people by **Feb. 11**, 2021, or latest date available

The original article has been updated.
