# Correction to: Consideration of sex and gender differences in addiction medication response

Sherry A. McKee<sup>1\*</sup>  and Aimee L. McRae-Clark<sup>2</sup>

## Correction to: *Biology of Sex Differences* (2022) 13:34

<https://doi.org/10.1186/s13293-022-00441-3>

Following publication of the original article [1], the authors reported a typo in the first sentence of the "Abstract" and the "Introduction". The first sentences of both should read as follows:

*"Substance use continues to contribute to significant morbidity and mortality in the United States, for both women and men, more so than any other preventable health condition."*

The original article [1] has been corrected.
