

## Orofacial overgrowth with peripheral nerve enlargement and perineuriomatous pseudo-onion bulb proliferations is part of the *PIK3CA*-related overgrowth spectrum

Ioannis G. Koutlas,<sup>\*</sup> Ana-Lia Anbinder, Rana Alshagroud, Ana Sueli Rodrigues Cavalcante, Mohammed Al Kindi, Molly M. Crenshaw, Julie C. Sapp, Hannah Kondolf, Marjorie J. Lindhurst, Jeffrey N. Dudley, Jennifer J. Johnston, Elyse Ryan, Keith Rafferty, Arupa Ganguly, and Leslie G. Biesecker

(Human Genetics and Genomics Advances 1, 100009-1–100009-6; October 22, 2020)

Although the original publication included a description of IRB approval, the description of the written informed consent for human subjects was inadvertently omitted. All participants provided informed consent. The journal and the authors regret this omission.
