Correction to: Symptoms presented during emergency telephone calls for patients with spontaneous subarachnoid haemorrhage

Asger Sonne^{1*}, Sarita Egholm¹, Laurits Elgaard¹, Niklas Breindahl¹, Alice Herrlin Jensen¹, Vagn Eskesen^{2,7}, Freddy Lippert^{3,7}, Frans Boch Waldorf^{4,5}, Nicolai Lohse^{6,7} and Lars Simon Rasmussen^{1,7}

Correction to: Scand J Trauma Resusc Emerg Med (2021) 29:118

https://doi.org/10.1186/s13049-021-00934-x

Following the publication of the original article [1], the authors informed as of an error in Figure 2: The term "persistently unconscious" had accidentally replaced

"neck pain" in the third row under "Symptoms".

The correct figure is shown here below and has already been included in the original article.

The original article can be found online at https://doi.org/10.1186/s13049-021-00934-x.

Full list of author information is available at the end of the article

Ready to submit your research? Choose BMC and benefit from:

- fast, convenient online submission
- thorough peer review by experienced researchers in your field
- rapid publication on acceptance
- support for research data, including large and complex data types
- gold Open Access which fosters wider collaboration and increased citations
- maximum visibility for your research: over 100M website views per year

At BMC, research is always in progress.
