

Fig.S1 The expression of inflammation-related factors after injection of hAMSCs into uterus of SD rats. **(A)** IHC showed the expression of MPO and CD45 in the uterus (scale bar = 50um). **(B)** qPCR detected the expression of IL-1, IL-6, and TNF- α . Quantification results normalized to GAPDH are shown as mean \pm SD (n = 3), a one-way ANOVA test. Ns indicates no significance.
