

Supplemental file 1. Sample questions posed during focus groups with physical therapists and interviews with professional leaders and professional practice leaders

Sample questions for physical therapists

- Tell me about what motivated you to participate in this study
- Tell me about your experience using the 10-metre walk test and 6-minute walk test among ambulatory patients post-stroke with or without the iWalkAssess app
- Tell me about your experiences using the reference values described in the iWalk guide and app
- Can you tell me about your experiences with the learning sessions?
- What are your opinions about whether the guide was sufficient to enable you to integrate the walk tests into your everyday clinical practice?

Sample questions for professional leaders and professional practice leaders*

- What are the role and responsibilities of your position?
- How would you describe your role in the iWalk study?
- Tell me about your experience setting up the walkways and organizing the equipment to perform the 10-metre and 6-minute walk tests as outlined in the iWalk guide.
- Tell me about your experience organizing the learning sessions
- What are your overall impressions of how each learning session went?
- What is your opinion about whether physical therapists changed their practice as a result of the iWalk study?

*Professional practice leaders were also asked about their experiences using the toolkit in clinical practice.
