## Correction

The results section of the published article [1] state that the karyotype of the proband was defined as follows: 46,XY,ish der(22)t(15;22)(q11.2;q11.2)(TUPLE-,TBX-)mat.

The above definition contains an error and should instead be written as follows: 46,XY.ish der(15)(15pter-&gt;15q11.2::22q11.2-&gt;22qter)t(15;22)(q11.2;q11.2)mat(TUPLE-,TBX1-).
