

Supplementary Figure 1. Expression, PPI network, and enrichment analysis of SLC31A1 in breast cancer. (A) Expression level of SLC31A1 in 4 pairs of breast cancer samples and adjacent normal breast tissues obtained from own hospital. * $P < 0.05$, ** $P < 0.01$, *** $P < 0.001$. (B) Analysis of PPI network. (C) Enrichment analysis of biological process of SLC31A1-interacting proteins. (D) Enrichment analysis of molecular function of SLC31A1-interacting proteins.
