Erratum in:

<https://doi.org/10.1148/radiol.229015>

An error appeared in Figure 1: the graph in part A appeared twice; **the graph in Figure 1A was changed to appear once.** The y-axis has been relabeled to say **Number of patients.** The Figure 1 legend was revised as follows: (B) Graphs compare patients with LAD and follow-up imaging. Bars show the **number** of examinations assigned Breast Imaging Reporting and Data System (BI-RADS) category 1 or 2 (negative or benign findings) versus BI-RADS 3 (probably benign finding; short-term follow-up is recommended) recommendations by time after the vaccination.
