In the originally published version of this manuscript, there was an inaccuracy in a reference in the PDF to the Supplementary material for the article and the Supplementary material was omitted from the online version of the paper. The reference should read: "Supplementary Material is available at GENETICS online." instead of "Supplementary material is available at figshare DOI: <https://doi.org/10.25386/genetics.14558805>." The reference error has now been corrected and the supplementary material supplied online.
