

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

## Erratum

# Erratum to “Detection of human coronavirus 229E-specific antibodies using recombinant fusion proteins” [J. Virol. Methods 55 (1995) 175]<sup>1</sup>

A. Phol-Koppe, T. Raabe, S.G. Siddell, V. ter Meulen

*Institute of Virology and Immunology, University of Würzburg, Versbacher Str. 7, 97078 Würzburg, Germany*

Received 2 January 1996

The publisher regrets that there was an error in Table 1. Two columns were headed  $\beta$ -gal/human Coronavirus-N. The column on the right should have been headed  $\beta$ -gal/human Coronavirus-S. The correct table should be as follows:

Table 1  
Serological results of immunofluorescence and Western blot analysis in 51 paediatric serum samples

Group	IF	Western blot		n (%)
		$\beta$ -gal/human coronavirus-N	$\beta$ -gal/human coronavirus-S	
I	–	–	–	23 (45.1)
II	–	–	+	11 (21.5)
III	–	+	–	6 (11.8)
IV	–	+	+	3 (5.9)
V	+	+	+	8 (15.7)
Total	51 (100)
