**Retraction Note: *J Exp Clin Cancer Res* 37, 49 (2018)**  
<https://doi.org/10.1186/s13046-018-0717-3>

The Editor-in-Chief has retracted this article at the corresponding author's request. After publication, the authors became aware that data from other projects were included in the figures, resulting in image overlap between this article and previous publications from other authors. Specifically:

- Fig. 3a appears to overlap with Fig. 4a in [1];
- Fig. 7g Cyclin D1 lanes 3 and 4 appear highly similar to Fig. 9d E-cadherin lanes 2 and 3 in [2].

Additionally, parts of images in Figs. 2d, 3a, 7g and 8f have subsequently been used in [3–7].

The authors have therefore lost confidence in the data presented in this article.

Author Kangsheng Tu has stated on behalf of all co-authors that they agree to this retraction.

The original article can be found online at <https://doi.org/10.1186/s13046-018-0717-3>

<sup>†</sup>Zhikui Liu and Yufeng Wang contributed equally to this work.

**Ready to submit your research? Choose BMC and benefit from:**

- fast, convenient online submission
- thorough peer review by experienced researchers in your field
- rapid publication on acceptance
- support for research data, including large and complex data types
- gold Open Access which fosters wider collaboration and increased citations
- maximum visibility for your research: over 100M website views per year

**At BMC, research is always in progress.**
