## Retraction Note: Phosphor-IWS1-dependent *U2AF2* splicing regulates trafficking of CAR-E-positive intronless gene mRNAs and sensitivity to viral infection

Georgios I. Laliotis , Adam D. Kenney, Evangelia Chavdoula, Arturo Orlacchio, Abdul Kaba, Alessandro La Ferlita, Vollter Anastas , Christos Tsatsanis , Joal D. Beane, Lalit Sehgal , Vincenzo Coppola , Jacob S. Yount & Philip N. Tschlis 

Retraction to: *Communications Biology* <https://doi.org/10.1038/s42003-021-02668-z>, published online 11 October 2021.

The authors are retracting this Article as irregularities were found in the data that indicate the splicing of the *U2AF2* exon 2 does not occur as reported in the Article. The irregularities call into question the conclusions and undermine our full confidence in the integrity of the study. The authors therefore wish to retract the Article.

All of the authors agree with the retraction.
