In the originally published version of this Resource, an error appeared in Equation 4 in the Experimental Procedures. The error does not affect the conclusions of the paper; all of the calculations with the Dice index were done with the correct formula. Equation 4 has been corrected in the paper online, and appears correctly below. The authors apologize for any confusion this mistake may have caused.

$$Dice\ Index = \frac{2|X \cap Y|}{|X| + |Y|}$$
