In the article titled “Inhibition of uncoupling protein 2 enhances the radiosensitivity of cervical cancer cells by promoting the production of reactive oxygen species” [1], an error was identified in Figure 3 which was introduced by the authors during figure preparation. Figure 3(a) is therefore corrected as below:

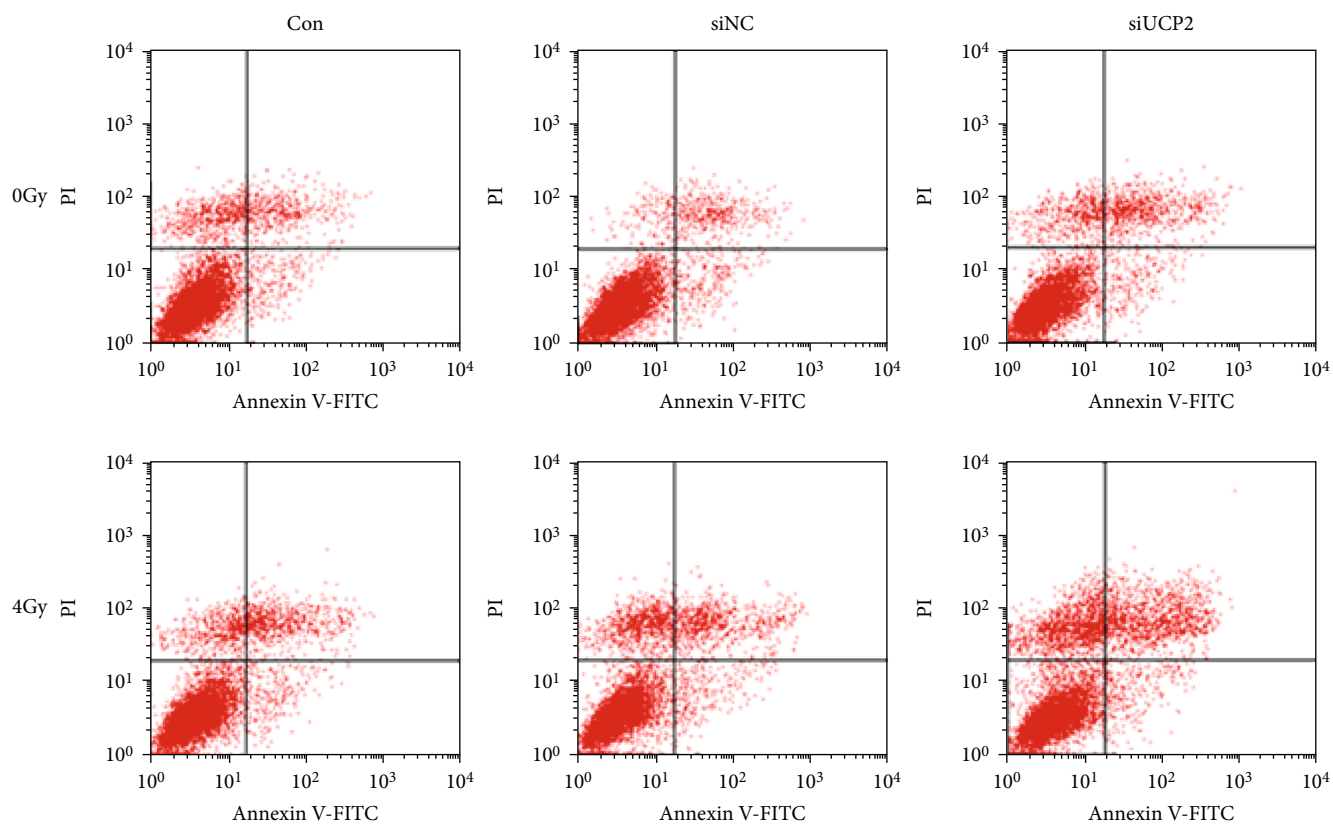

FIGURE 3: UCP2 knockdown increases apoptosis of irradiated HeLa cells. (a) Flow cytometry analysis of apoptosis after UCP2 knockdown with or without irradiation.
