Refine: We confirm that authors information is correct

ChatGPT

We confirm that the authors' information is accurate.

You

Refine:
While we comment the editorial work done, the references need to be fixed to ensure correctness. Considering the initial approach of having separate list for multimedia appendices may minimize the potential miscitation.

ChatGPT

We appreciate the editorial efforts made; however, the references require adjustment to ensure accuracy. We suggest maintaining separate lists for the multimedia appendices to minimize the potential for miscitation.
