

## Autoimmune Septin-5 Cerebellar Ataxia

*Neurol Neuroimmunol Neuroinflamm* 2019;6:e534. doi:10.1212/NXI.0000000000000534

In the article, “Autoimmune Septin-5 Cerebellar Ataxia” by Honorat, et al.<sup>1</sup>, first published online on July 9, 2018, the scale bar measurement for Figure 1 should read as Scale bar, A, H and I, 100  $\mu\text{m}$ ; B, C, and D, 200  $\mu\text{m}$ ; E and F, 150  $\mu\text{m}$ ; the scale bar measurement for Figure 2 should read as Scale bar, B, 200  $\mu\text{m}$  (top), 150  $\mu\text{m}$  (bottom); C, 100  $\mu\text{m}$  (left), 200  $\mu\text{m}$  (right); and the scale bar measurement for the e-figure legend should read as 75  $\mu\text{m}$ . The authors regret the error.
